HTML - Structuring the web

In this **part** of the **course** we are **going to provide** a **deep understanding** of **HTML**, the **fundamental technology used** to define the **structure** and **semantics** of **elements** within a **webpage**.

Learning pathway

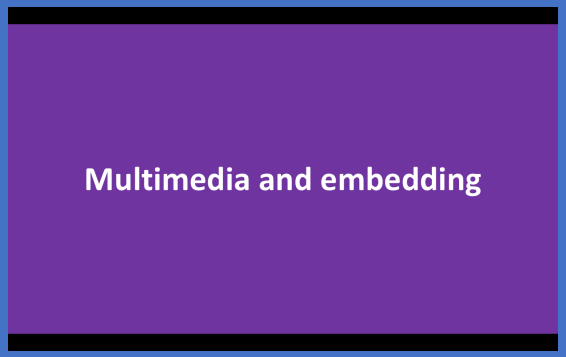

This part of the course

Modules of this part of the course

1. **Introduction** to **HTML**
2. **Multimedia** and **embedding**
3. HTML **tables**
4. HTML **forms**

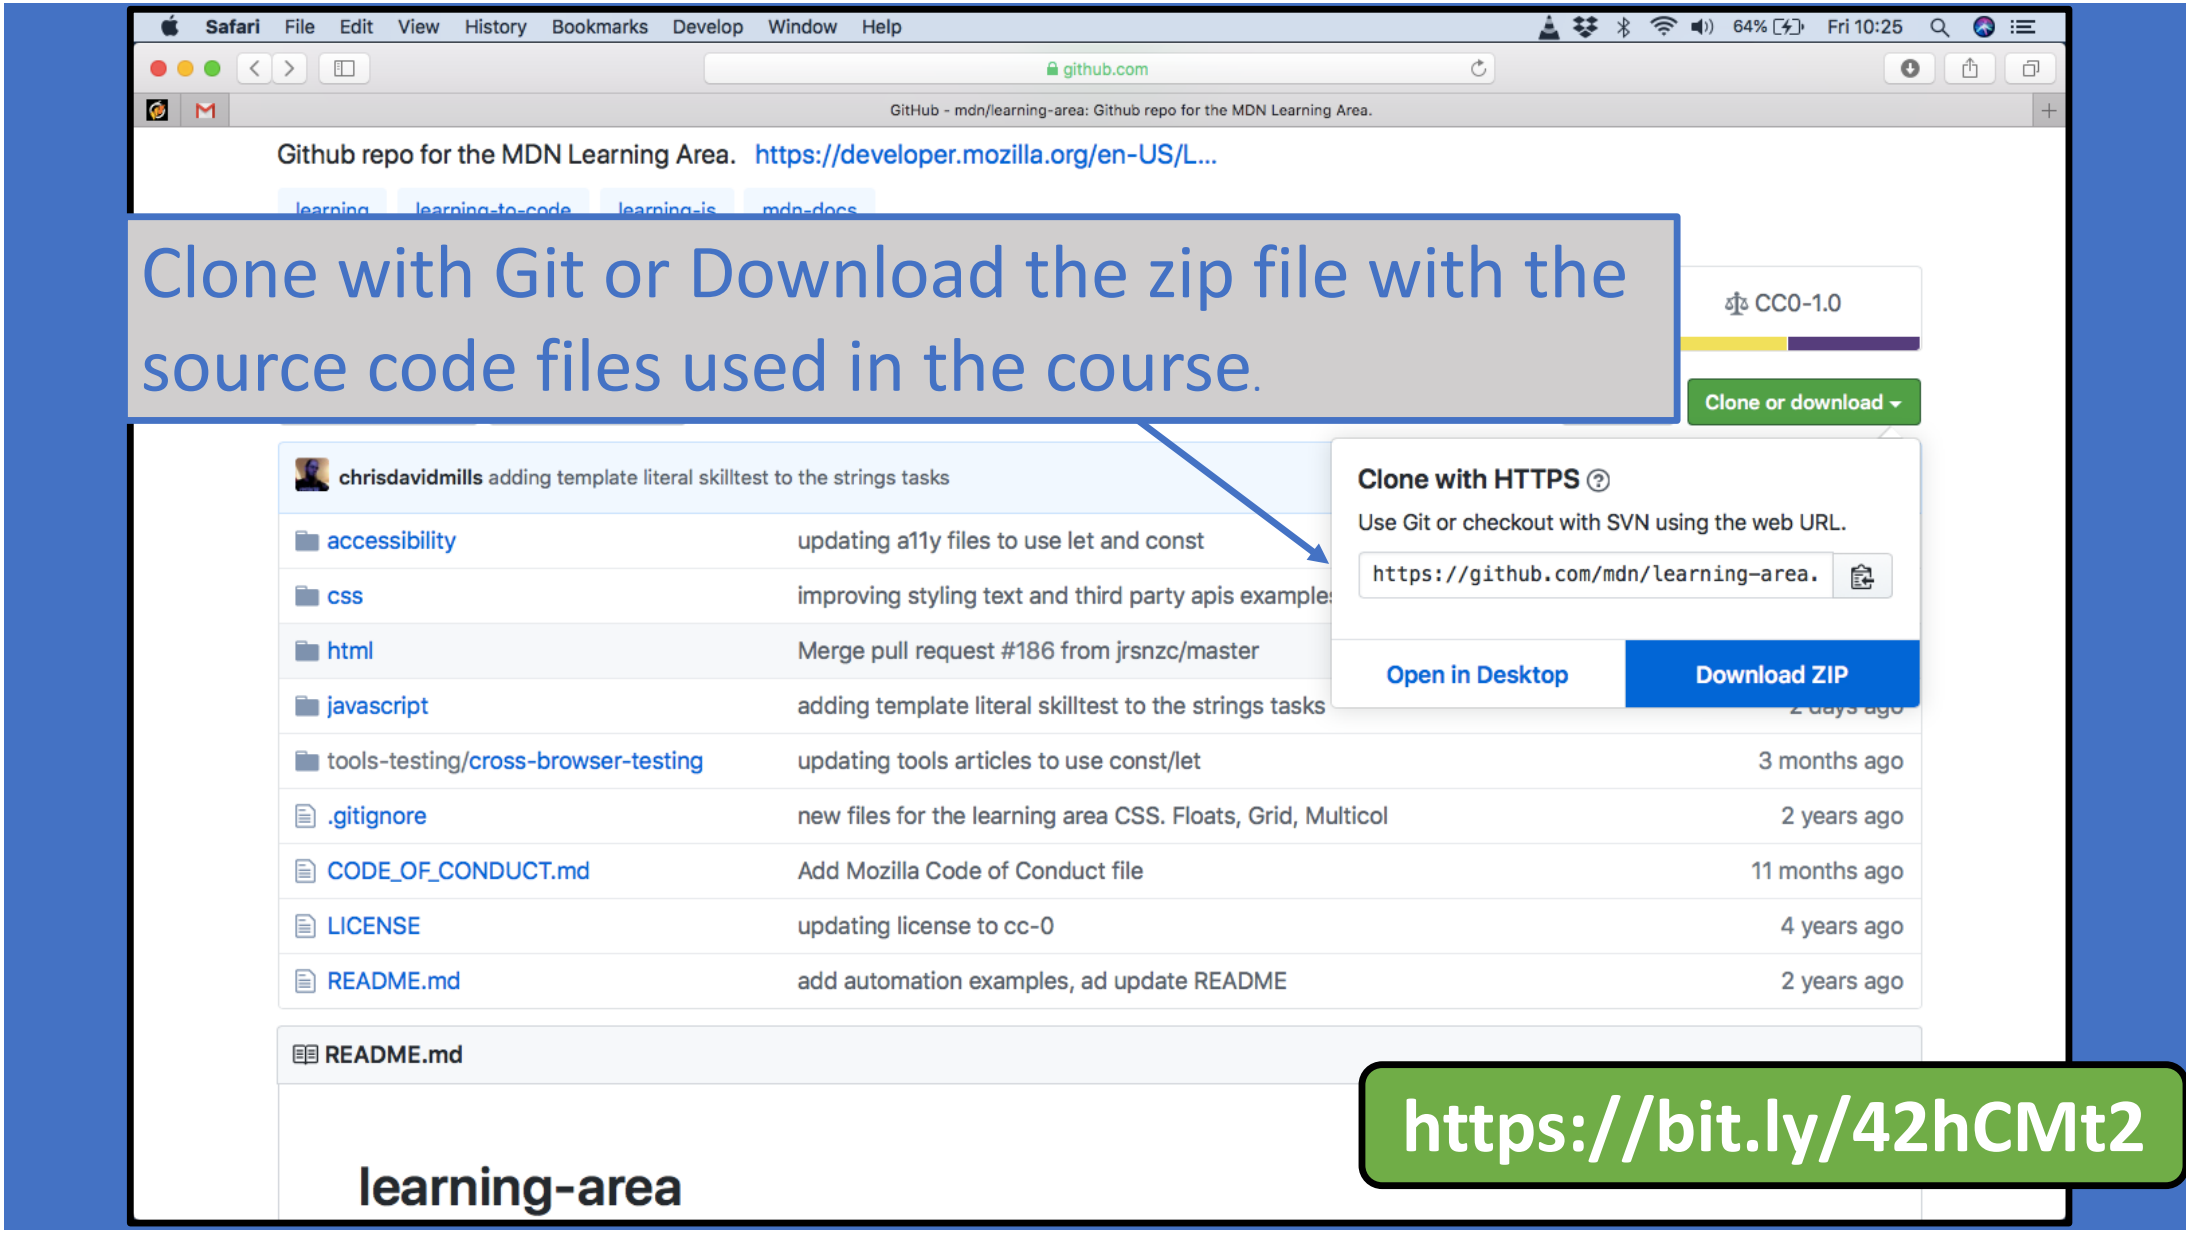

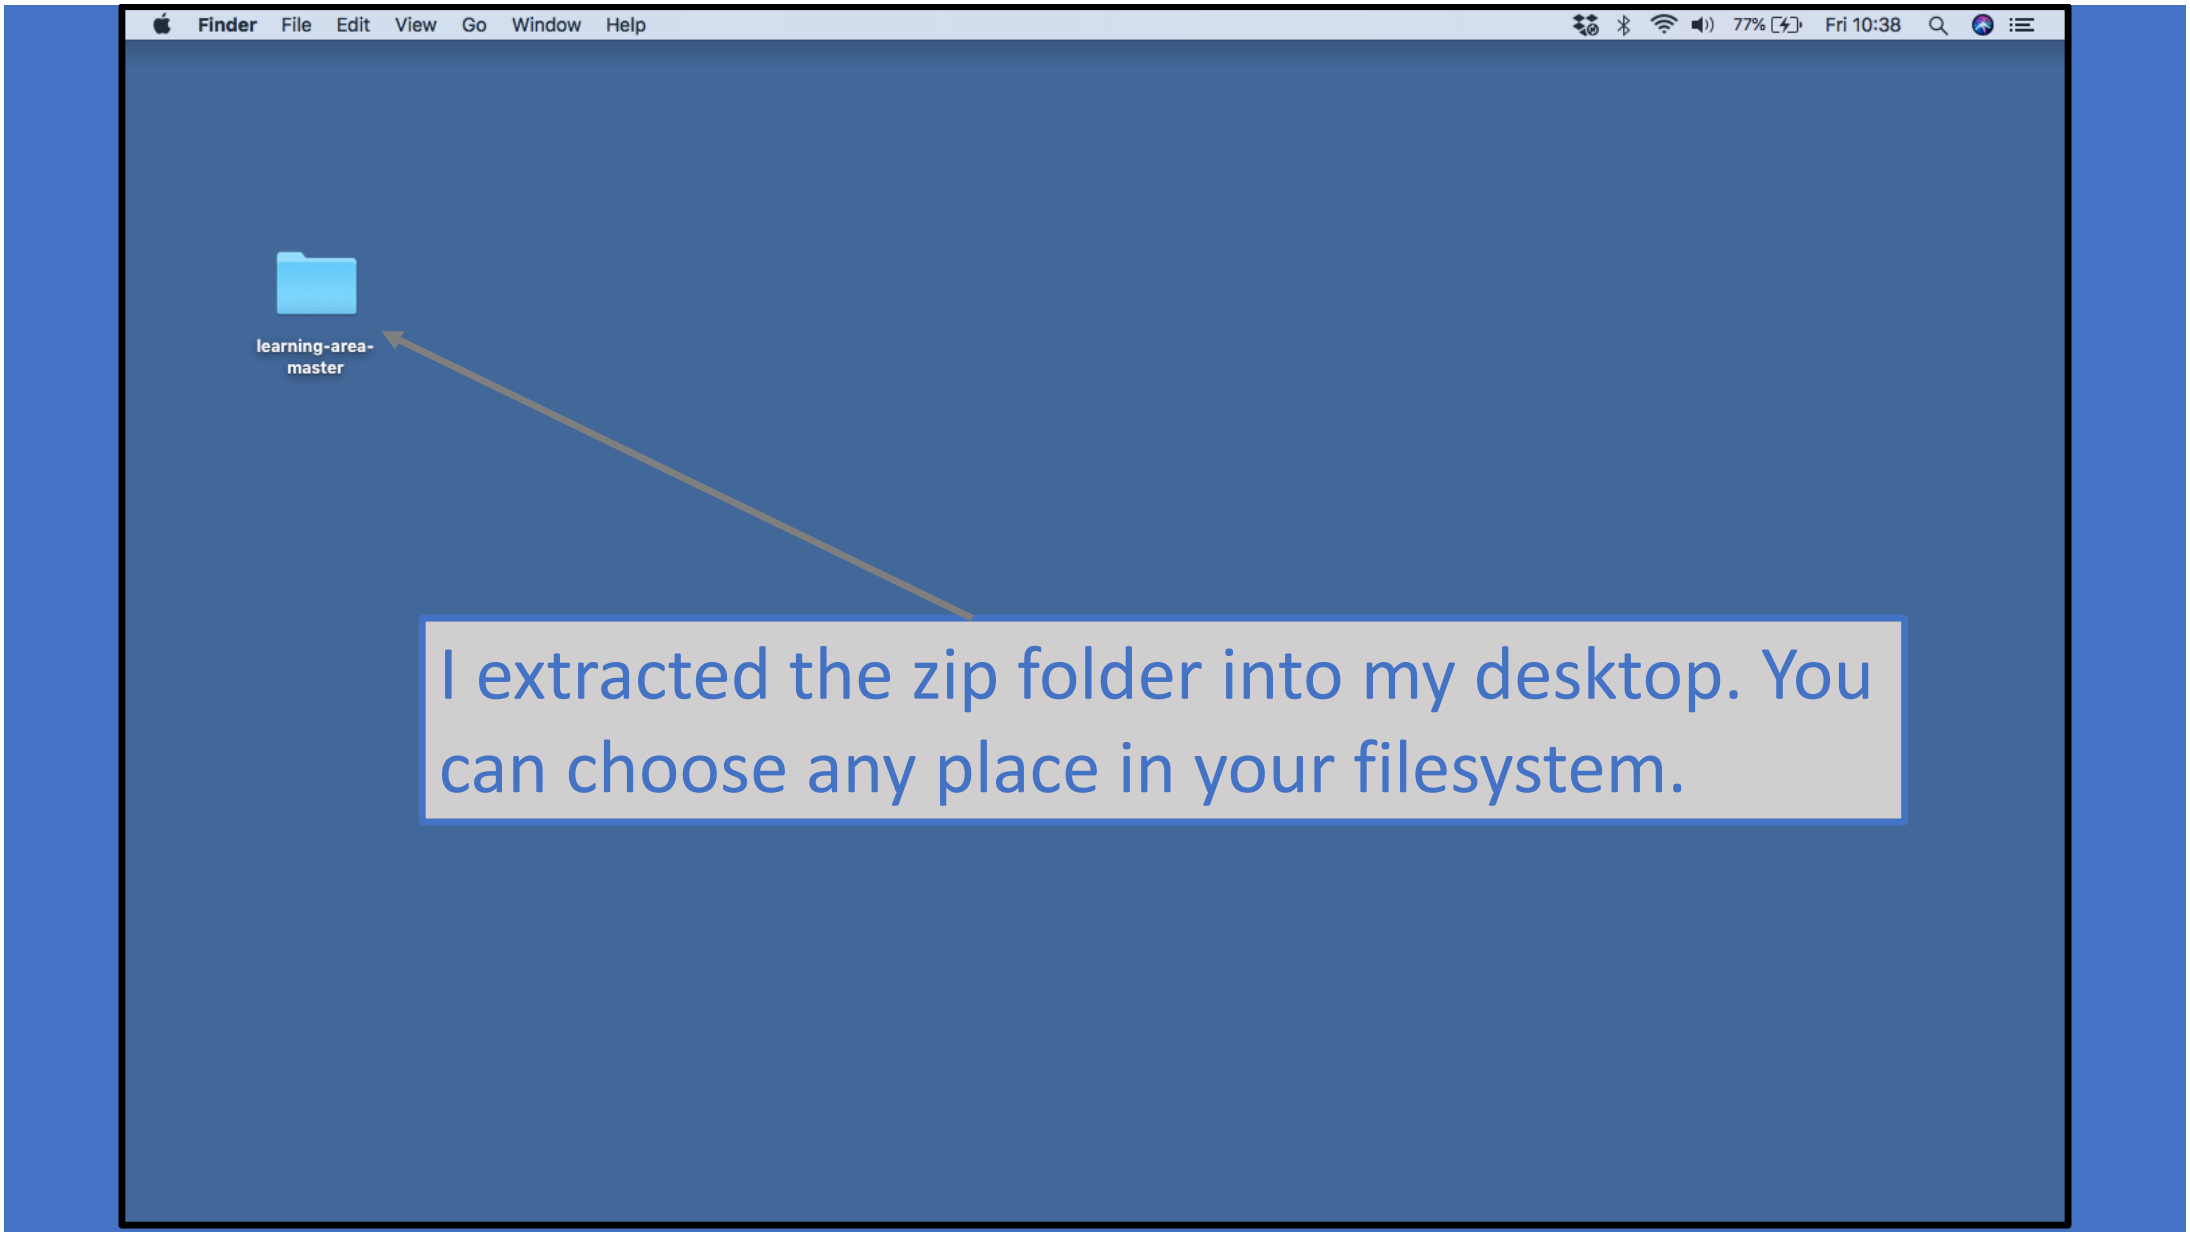

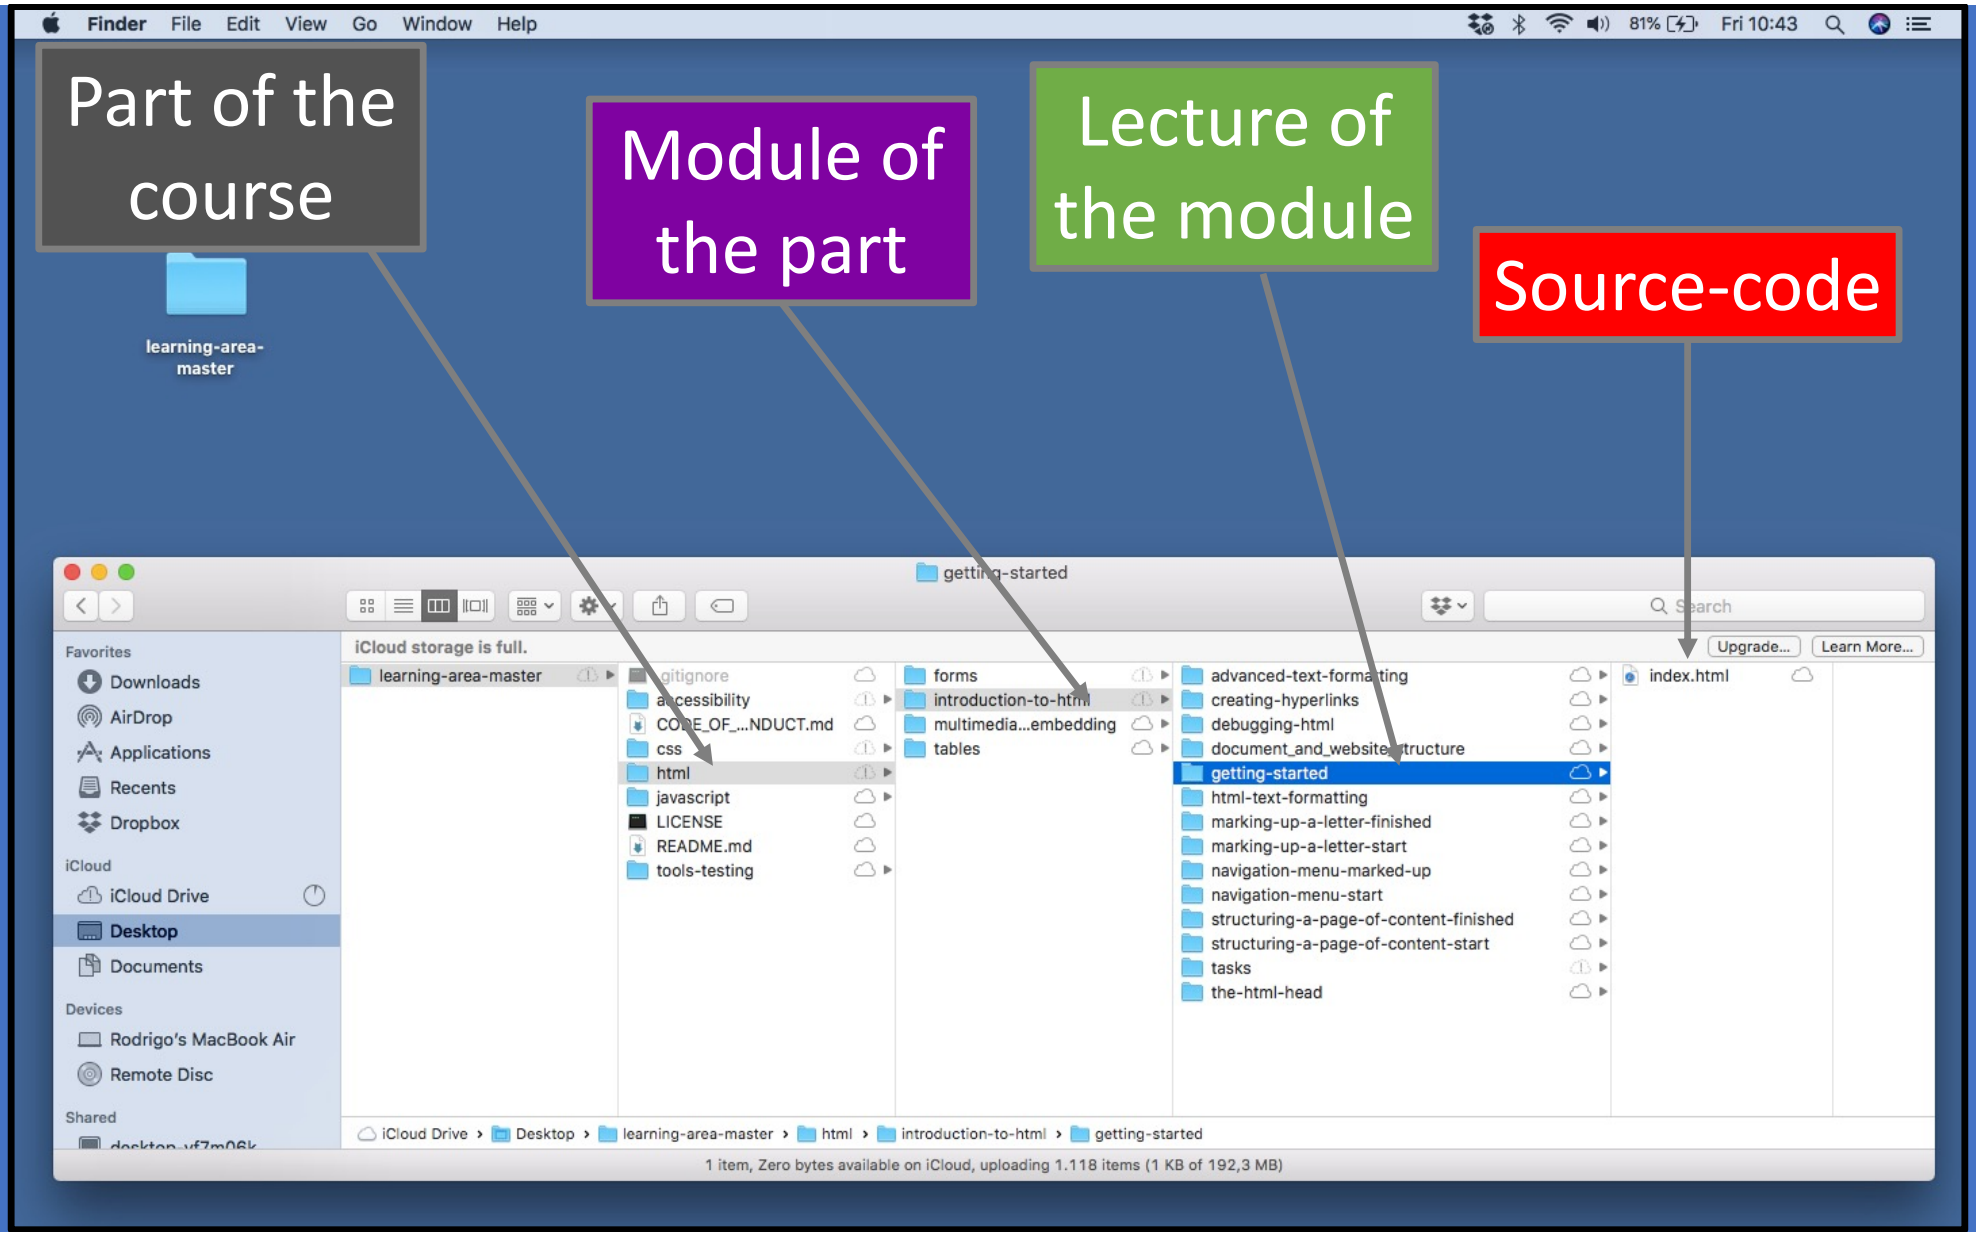

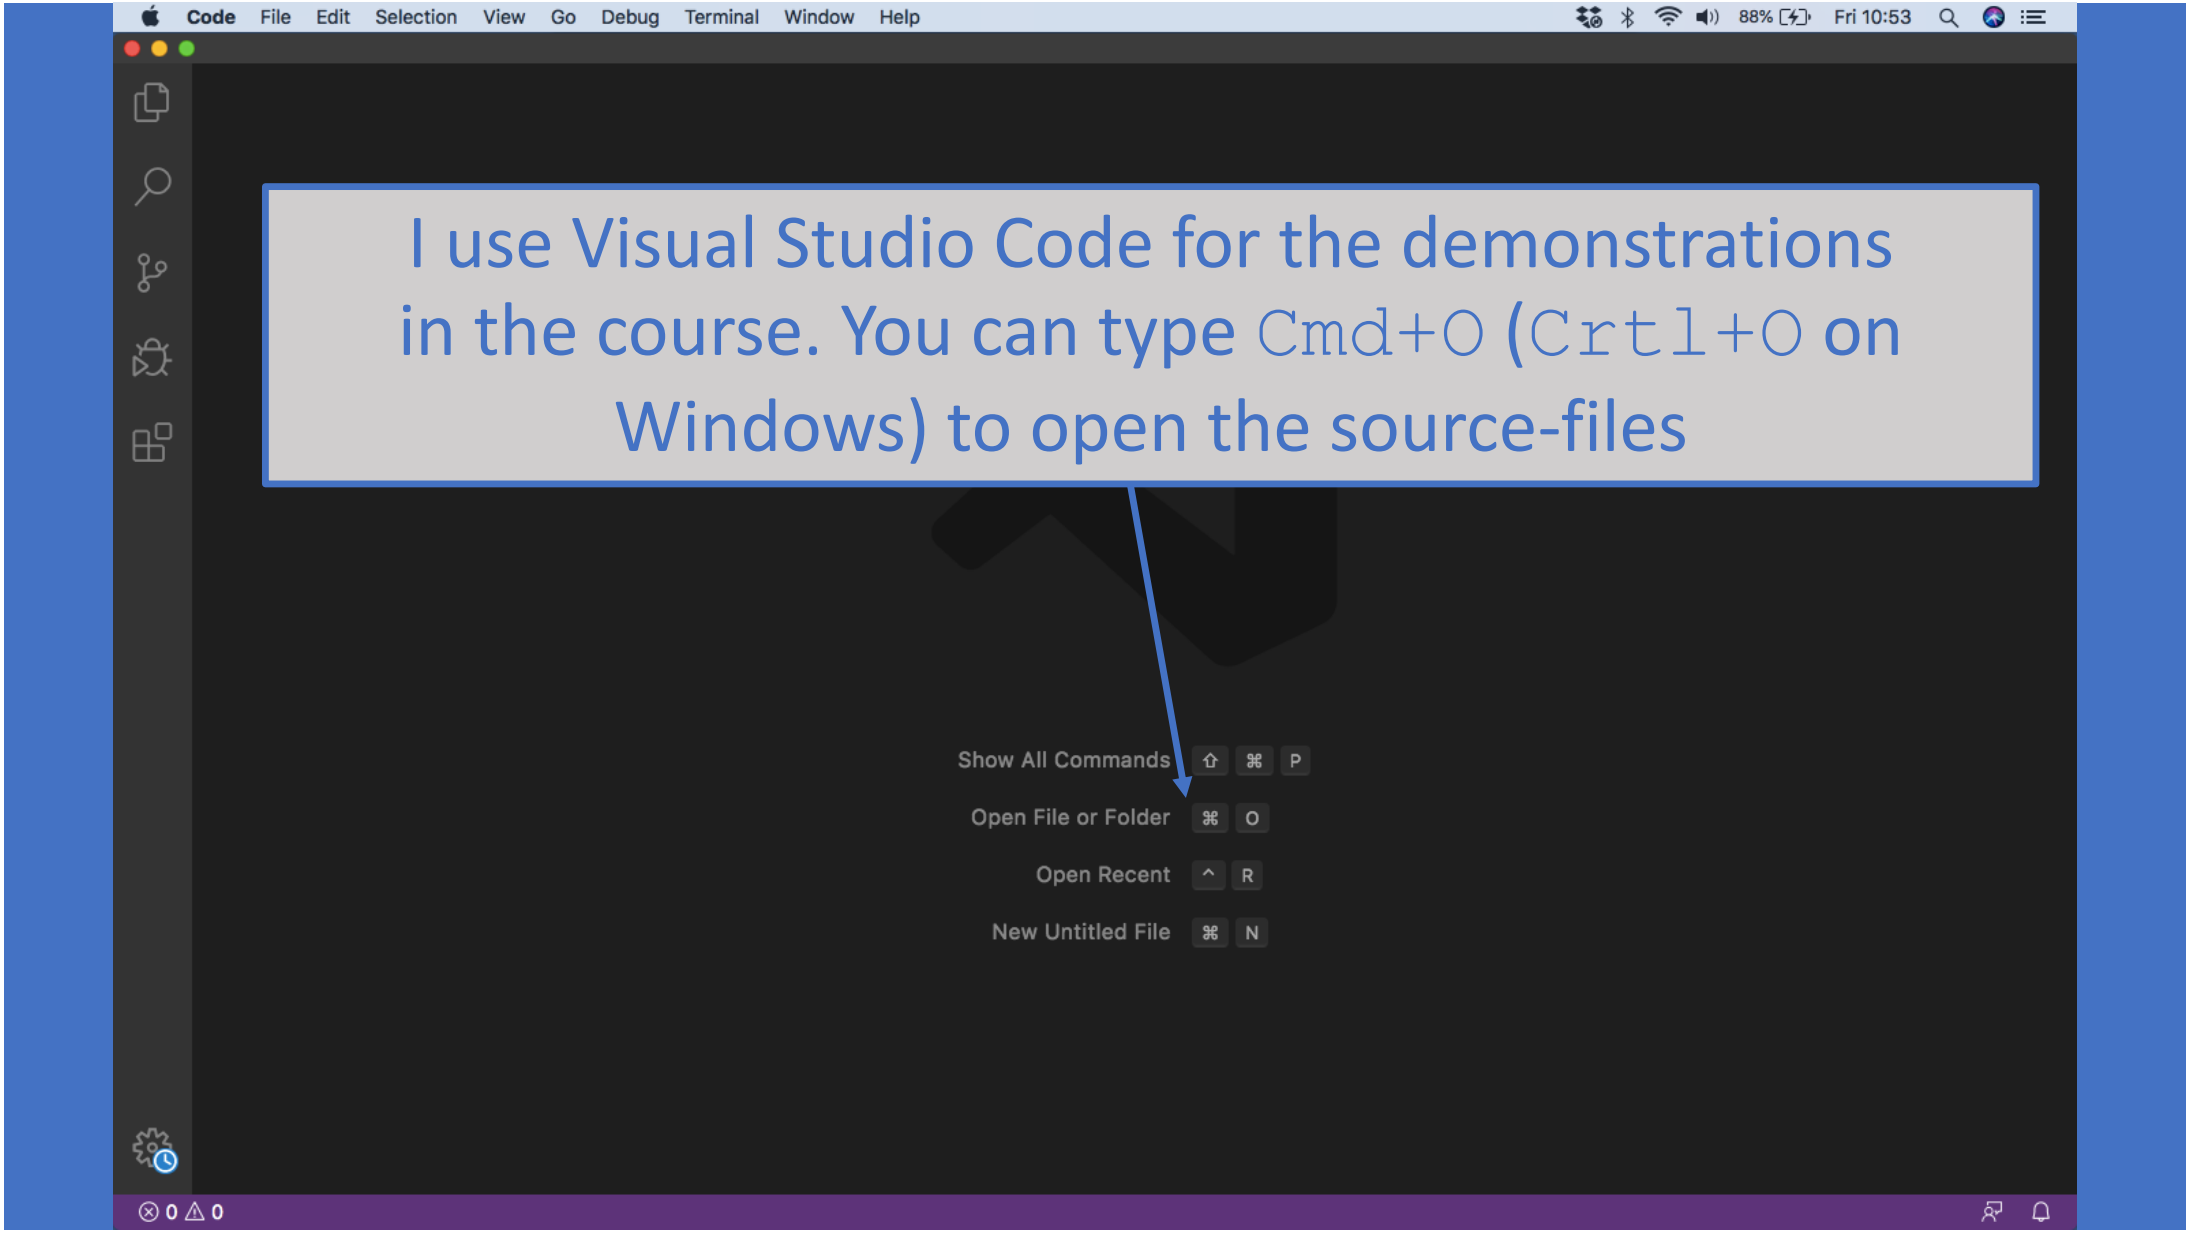

How to use the source-code files

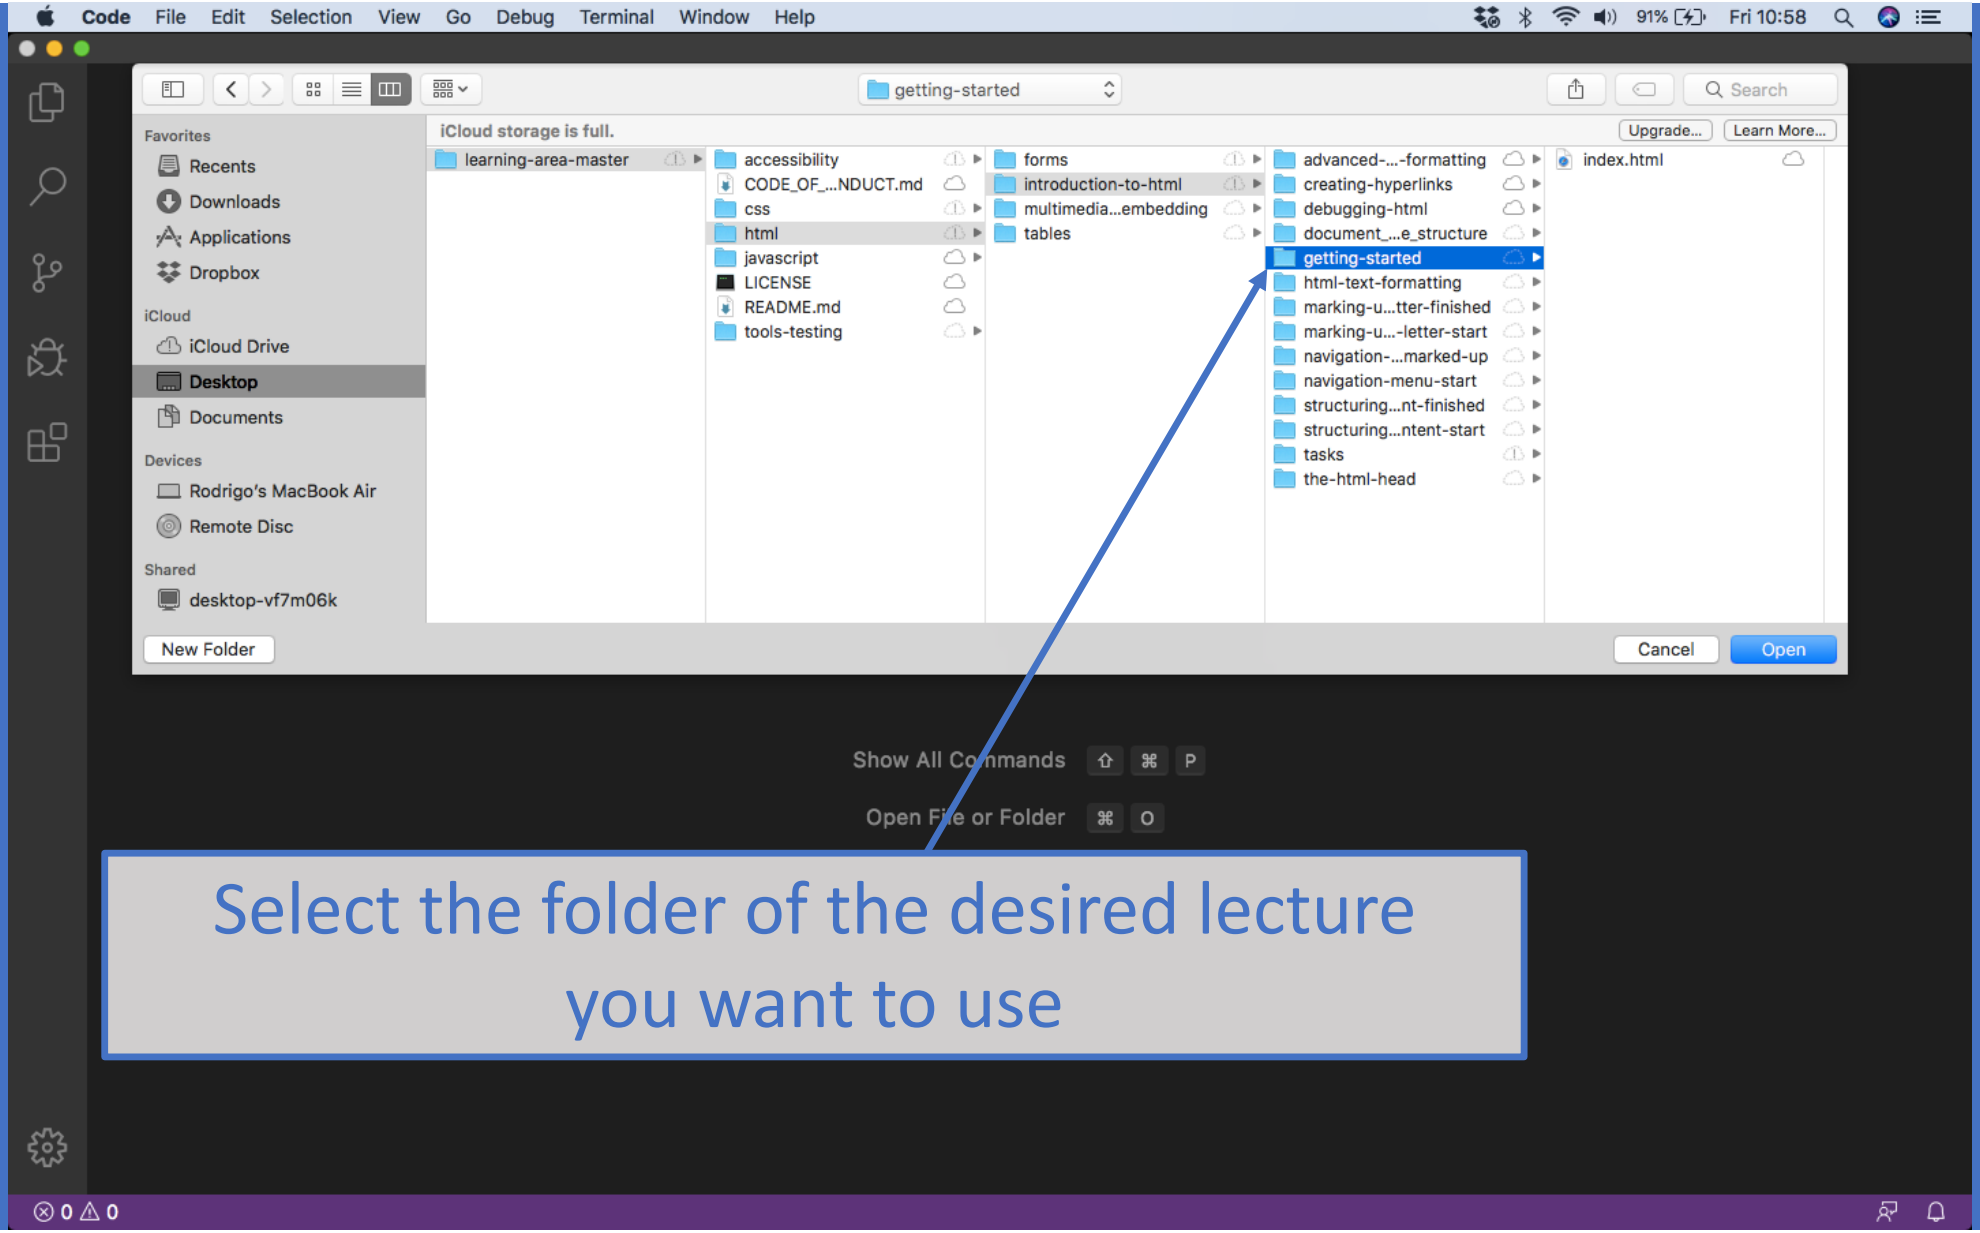

Lecture: How to use the source-code files
Module: Introduction to HTML

I use Visual Studio Code for the demonstrations in the course. You can type Cmd+O (Crtl+O on Windows) to open the source-files
Show All Commands ⇧ ⌘ P
Open File or Folder ⌘ O
Open Recent ^ R
New Untitled File ⌘ N
